INDEPENDENT ASSURANCE STATEMENT

Introduction

DNV Business Assurance India Private Limited ('DNV'), has been commissioned by J.K. Cement Limited (Corporate Identity Number L17229UP1994PLC017199, hereafter referred to as 'JKCL' or 'the Company') to undertake an independent assurance of the Company's sustainability/non-financial disclosures in its Integrated Report (hereafter referred as 'Report'). The disclosures have been prepared by JKCL:

- "in accordance" to requirements of Global Reporting Initiative (GRI) sustainability reporting standards 2021
- Integrated Reporting (<IR>) framework of the International Integrated Reporting Council (IIRC)
- United Nations Sustainable Development Goals (SDGs)
- GCCA, The Cement CO₂ and Energy Protocol, Version 3 (previously identified as WBCSD CSI V3.1 protocol)
- Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard.

DNV carried out assurance engagement in accordance with DNV's VeriSustain™ protocol, V6.0, which is based on our professional experience and international assurance practice, and the international standard in Assurance Engagements, ISAE 3000 (revised) - Assurance Engagements other than Audits. DNV's Verisustain™ Protocol has been developed in accordance with the most widely accepted reporting and assurance standards.

Apart from DNV's VeriSustain™ protocol, DNV team has also followed ISO 14064-3 - Specification with guidance for the verification and validation of greenhouse gas statements; ISO 14046 - Environmental management - Water footprint - Principles, requirements, and guidelines and GCCA, The Cement CO₂ and Energy Protocol, Version 3 to evaluate indicators wrt. Greenhouse gases and water disclosures respectively.

The intended user of this assurance statement is the Management of J.K. Cement Limited ('the Management').

As per agreed scope of work, DNV performed limited level of assurance of GRI disclosure in IR. Details of Scope are mentioned in the section 'Scope, Boundary and Limitations'. We have not performed any work, and do not express any conclusion, on any other information that may be published outside of the Report and/or on Company's website for the current reporting period.

Responsibilities of the Management of JKCL and of the Assurance Provider

The Management of JKCL has the sole responsibility for the preparation of the Report and is responsible for all information disclosed in the Report. The company is responsible for maintaining processes and procedures for collecting, analyzing and reporting the information and also, ensuring the quality and consistency of the information presented in the Report. JKCL is also responsible for ensuring the maintenance and integrity of its website and any referenced disclosures on their website.

In performing this assurance work, DNV's responsibility is to the Management of the Company; however, this statement represents our independent opinion and is intended to inform the outcome of the assurance to the stakeholders of the Company.

Scope, Boundary and Limitations

The agreed scope of work included information on non- financial performance which were disclosed in the Report prepared by JKCL based on GRI General disclosures and Topic-specific Standards for the identified material topics for the activities undertaken by the Company during the reporting period 01/04/2023 to 31/03/2024. The reported topic boundaries of non-financial performance is based on the internal and external materiality assessment covering Company's operations as brought out in the section 'Reporting boundary and period' of the report.

While the scope of work as agreed is Limited assurance of the GRI disclosures indicators in the IR report, a reasonable level of assurance was carried out for the indicators of GRI 302: Energy 2016 - 302-1, 302-3; GRI 303: Water and Effluents 2018 - 303-3, 303-4, 303-5; GRI 305: Emissions 2016 - 305-1, 305-2, 305-4; GRI 306: Waste 2020 - 306-3; 306-4; 306-5 disclosures as a part of the BRSR Core assessment while Limited Level of assurance of assurance was done for rest GRI disclosures as mentioned in Annexure I.

Boundary covers the performance of JKCL operations in India that fall under the direct operational control of the Company's Legal structure. Based on the agreed scope with the Company, the boundary covers the operations of JKCL across all locations in India (12 manufacturing plants and 51 offices). The boundary for GHG footprint, water footprint, energy footprint, air emissions and waste management related disclosures is limited to the 11 manufacturing units (6 integrated cement plants and 5 grinding units) located in India.

Inherent Limitation(s):

DNV's assurance engagements are based on the assumption that the data and information provided by the Company to us as part of our review have been provided in good faith, are true, and is free from material misstatements. Because of the selected nature (sampling) and other inherent limitation of both procedures and systems of internal control, there remains the unavoidable risk that errors or irregularities, possibly significant, may not have been detected.

The assurance scope has the following limitations:

- The assurance engagement considers an uncertainty of ±5% based on materiality threshold for estimation/measurement errors and omissions.
- DNV has not been involved in evaluation or assessment of any financial data/performance of the company. DNV opinion on financial disclosures relies on the third party audited financial reports of the Company. DNV does not take any responsibility of the financial data reported in the audited financial reports of the Company.
- The assessment is limited to data and information within the defined Reporting Period. Any data outside this period is not considered within the scope of assurance.
- Data outside the operations specified in the assurance boundary is excluded from the assurance, unless explicitly mentioned otherwise in this statement.
- The assurance does not cover the Company's statements that express opinions, claims, beliefs, aspirations, expectations, aims, or future intentions. Additionally, assertions related to Intellectual Property Rights and other competitive issues are beyond the scope of this assurance.
- The assessment does not include a review of the Company's strategy or other related linkages expressed in the Report. These aspects are not within the scope of the assurance engagement.
- The assurance does not extend to mapping the Report with reporting frameworks other than those specifically mentioned. Any assessments or comparisons with frameworks beyond the specified ones are not considered in this engagement.
- Aspects of the Report that fall outside the mentioned scope and boundary are not subject to assurance. The assessment is limited to the defined parameters.
- The assurance engagement does not include a review of legal compliances. Compliance with legal requirements is not within the scope of this assurance, and the Company is responsible for ensuring adherence to relevant laws.

DNV expressly disclaims any liability or co-responsibility for any decision a person or an entity may make based on this Independent Assurance Statement.

Assurance process

As part of the assurance process, a multi-disciplinary team of assurance specialists performed assurance work for selected sites of JKCL. We adopted a risk-based approach, that is, we concentrated our assurance efforts on the issues of high material relevance to the Company's business and its key stakeholders. We carried out the following activities:

1. Reviewed the disclosures in the report. Our focus included general disclosures, management processes, principle wise performance (essential indicators, and leadership indicators) and any other key metrics specified under the reporting framework.
2. Understanding the key systems, processes and controls for collecting, managing and reporting the non-financial disclosures in report.
3. Walk-through of key data sets. Understand and test, on a sample basis, the processes used to adhere to and evaluate adherence to the reporting principles.
4. Collect and evaluate documentary evidence and management representations supporting adherence to the reporting principles.
5. Interviews with the senior managers responsible for management of disclosures. We were free to choose interviewees and interviewed those with overall responsibility of monitoring, data collation and reporting the selected GRI disclosures.
6. DNV audit team conducted on-site audits for corporate offices and sites (mentioned in Annexure II). Sample based assessment of site-specific data disclosures was carried out. We were free to choose sites for conducting our assessment.
7. Reviewed the process of reporting as defined in the assessment criteria.

Conclusion

Limited Level of Assurance

On the basis of the assessment undertaken, for GRI disclosures as mentioned in Annexure I, nothing has come to our attention to suggest that the disclosures are not fairly stated and are not prepared, in all material aspects, in accordance with the reporting criteria.

DNV Business Assurance India Pvt. Ltd.

DNV-2024-ASR-699474

Page 3 of 6

1. Materiality

The process of determining the issues that are most relevant to an organization and its stakeholders.

The Report explains out the materiality assessment process carried out by the Company which has considered concerns of internal and external stakeholders, and inputs from peers and the industry, as well as issues of relevance in terms of impact for JKCL's business. The list of topics has been prioritized, reviewed and validated, and the Company has indicated that there is no significant change in material topics from the previous reporting period.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Materiality.

2. Responsiveness

The extent to which an organization responds to stakeholder issues.

The Report adequately brings out the Company's policies, strategies, management systems and governance mechanisms in place to respond to topics identified as material and significant concerns of key stakeholder groups. Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Responsiveness.

Nothing has come to our attention to believe that the Report does not meet the requirements related to the Principle of Responsiveness.

3. Reliability/Accuracy

The accuracy and comparability of information presented in the report, as well as the quality of underlying data management systems.

The Report brings out the systems and processes that the Company has set in place to capture and report its performance related to identified material topics across its reporting boundary. The majority of information mapped with data verified through our assessments with JKCL's management teams and process owners at the Corporate Office and sampled sites within the boundary of the Report were found to be fairly accurate and reliable. Some of the data inaccuracies identified in the report during the verification process were found to be attributable to transcription, interpretation, and aggregation errors. These data inaccuracies have been communicated for correction and the related disclosures were reviewed post correction.

Nothing has come to our attention to believe that the Report does not meet the principle of Reliability and Accuracy.

4. Completeness

How much of all the information that has been identified as material to the organization and its stakeholders is reported?

The Report brings out the Company's performance, strategies and approaches related to the environmental, social and governance issues that it has identified as material for its operational locations coming under the boundary of the report, for the chosen reporting period while applying and considering the requirements of Principle of Completeness.

Nothing has come to our attention to suggest that the Report does not meet the Principle of Completeness with respect to scope, boundary and time.

5. Neutrality/Balance

The extent to which a report provides a balanced account of an organization's performance, delivered in a neutral tone.

The Report brings out the disclosures related to JKCL's performance during the reporting period in a neutral tone in terms of content and presentation, while considering the overall macroeconomic and industry environment.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Neutrality.

Statement of Competence and Independence

DNV applies its own management standards and compliance policies for quality control, which are based on the principles enclosed within ISO IEC 17029:2019 - *Conformity assessment - General principles are requirements for validation and verification bodies*, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

Page 4 of 6

We have complied with the DNV Code of Conduct¹ during the assurance engagement. DNV's established policies and procedures are designed to ensure that DNV, its personnel and, where applicable, others are subject to independence requirements (including personnel of other entities of DNV) and maintain independence where required by relevant ethical requirements. This engagement work was carried out by an independent team of sustainability assurance professionals. DNV was not involved in the preparation of any statements or data included in the Report except for this Assurance Statement for internal use of J.K. Cement Limited.

Purpose and Restriction on Distribution and Use

This assurance statement, including our conclusion has been prepared solely for the Company in accordance with the agreement between us. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Management of the Company for our work or this report.

Capex	18.83%	9%	-

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

JKCL strictly adheres to a well-defined ESG policy and a code of conduct for suppliers. We have an integrated system in place that permits business dealings exclusively with suppliers who commit to complying with JKCL's ESG guidelines. As a result, we ensure that our sourcing is fully sustainable. The link of Supplier's Code of Conduct is given below:
<https://www.jkcement.com/frontTheme/pdf/Supply-Chain-Sustainability-and-Suppliers-Code-of-Conduct-of-JK-Cement.pdf>

b. If yes, what percentage of inputs were sourced sustainably?

All new suppliers are onboarded based on ESG parameters, ensuring that the sourcing practices align with JKCL's commitment to Sustainable sourcing. It is evident in systematic and thorough supplier evaluation and approval process, which underscores the company's pledge to sustainability and responsible business practices.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

- a) Plastic packaging bags are commonly reused for storing various items, including construction inventory, grains, fodder, and more. Furthermore, once these plastic bags are disposed of, they are often recycled by waste recyclers. JKCL also co-processes the plastics waste as an AFR.
- b) Our products do not produce any E-waste. However, the E-waste produced during the office operations is sold to the registered recyclers.
- c) The hazardous waste produced during the cement manufacturing process is responsibly disposed off by selling it to certified recyclers or waste management companies. Furthermore, the fraction of hazardous waste that can be incinerated is utilised for co-processing within our own facility.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, Extended Producer Responsibility (EPR) is applicable for JK Cement Limited. JKCL has registered for EPR targets and compliances on CPCB portal along with action plan.

- Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.
JKCL is committed to fostering a secure, healthy, and supportive work environment for both employees and stakeholders alike. We organise training programs for our value chain partners, sharing insights on health and safety, as well as the best practices implemented across our manufacturing plants to maintain safe working conditions and prevent accidents.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

- Describe the processes for identifying key stakeholder groups of the entity.
We highly prioritise our interactions with stakeholders, engaging with them regularly to comprehend their expectations and concerns. JK Cement has a structured Materiality Assessment process to identify key stakeholder groups and take their input in identifying material issues. We identified both internal and external stakeholders based on their capacity to impact or influence the organisation.
 - External stakeholders- Shareholders, Dealers, Customers, Government, Regulatory & Statutory bodies, Media, Local communities
 - Internal stakeholders- Employees

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Our company has established a CSR & Sustainability Committee responsible for overseeing ESG governance and monitoring performance. Chaired by an Independent Woman Director, this committee provides quarterly updates on performance and reviews in their respective areas, presenting outcomes to the Board during meetings. Furthermore, the company conducts periodic stakeholder engagement exercises on ESG topics, following a structured approach regarding frequency, delegation, and reporting of outcomes, including feedback from stakeholders to the Board.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, Stakeholder consultations were conducted to identify and prioritise material topics, considering their impact on both our stakeholders and our business. Using the outcomes from the materiality assessment and stakeholder engagement exercise, strategies, objectives, and goals are developed and implemented, supported by a monitoring mechanism to ensure effectiveness.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalised stakeholder groups.

JKCL has a strong commitment to engaging with and addressing the concerns of vulnerable and marginalised stakeholder groups. Several initiatives have been undertaken to ensure their voices are heard and their needs are met. One such instance is the establishment of community outreach programs aimed at improving the livelihoods of marginalised communities around our operational areas. These programs include skill development workshops, educational support, and healthcare services. In response to specific concerns raised by these groups, JKCL has implemented tailored solutions such as constructing sanitation facilities, providing clean drinking water, and enhancing local infrastructure. Furthermore, regular consultation meetings are held with community representatives to continuously assess and address their needs. For more details on initiatives taken at local level, Refer- Social and Relationship Capital section of Integrated Annual Report FY 2024.

PRINCIPLE 5: Businesses should respect and promote human rights

Gross wages paid to females as % of total wages	2.9%	2.9%

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes. The Company has developed Human Rights Policy to define JKCL' commitment to respect Human rights and provide conducive environment to our employees and our stakeholders. Under this Policy, Chief Human Resource officer (CHRO) of the Company shall be responsible for addressing any alterations, implications, amendments in the Policy. The Company also has Grievance Redressal Policy which defines the mechanism to redress grievances related to human rights issues.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

JKCL has a well-defined Grievance Redressal Policy to address and resolve any grievances related to harassment or human rights violations. The policy establishes a structured mechanism for handling such issues, ensuring employees' concerns are effectively addressed. We have internal committee, who is responsible to address the grievance and resolve within stipulated time.

6. Number of Complaints on the following made by employees and workers:

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Cement, an indispensable material for construction, plays a pivotal role in the development of emerging markets worldwide. However, the cement industry is also a significant contributor to global CO₂ emissions, accounting for about 7% of the total and standing as the second-largest industrial emitter after the iron and steel sector. Cement production is an energy-intensive process and hard to abate sector for the reduction of GHG emission that consumes both thermal and electrical energy.

The major source of emission is through primary raw material, limestone, which generates greenhouse gas (GHG) emissions during heating, (known as process emissions). The Process emissions account for approximately 60% of total emissions, while power and fuel contribute 10% and 30%, respectively.

JK Cement Ltd. (JKCL) has identified four major strategies to reduce its carbon footprint:

1. Integrations of advanced technologies and practices to enhance energy efficiency.
2. Transitioning from fossil fuels to cleaner alternatives such as AFR
3. Increasing the use of renewable energy and waste heat recovery systems (WHRS) to reduce reliance on fossil power.
4. Lowering the proportion of clinker in cement by producing more blended cement.

JKCL has near-term targets aligned with the well-below 1.5-degree celsius scenario, which was validated by the Science Based Targets initiative (SBTi) in August 2023. The company aims to reduce GHG emissions (Scope 1 and Scope 2) by 21.7% from FY 2019-20 to FY 2029-30 through various decarbonisation measures. The action plan includes increasing the share of green power mix (renewable energy and WHRS) to 75%, reducing the clinker factor to 65%, and raising the thermal substitution rate (TSR) to 35% by partially replacing kiln fossil fuel with biomass and alternative fuels and raw materials (AFR).

Over the years, JKCL has undertaken numerous initiatives to adopt clean and green technologies. The company has consistently integrated the best available technologies in the market to enhance energy efficiency and reduce its environmental impact.

9. Provide details related to waste management by the entity, in the following format:

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

DNV Business Assurance India Private Limited has carried out the independent assessment of the GRI Indicator assurance (Non- Financial) and BRSR core elements. The financial assurance was carried out by S.R Batliboi & Co. LLP.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

JKCL is committed to minimising the use of hazardous materials in our products and eliminating waste directed to disposal. E-waste or batteries generated are sent to authorised recyclers, while used oil is co-processed within our cement operations whenever possible. Additionally, non-hazardous waste generated is directed to third-party recyclers.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:
